

mstrust

annual conference 2012

Don't miss this unique event specifically for health and social care professionals working with people with MS providing:

- Updates on latest treatments, therapies and clinical research
- Skills development
- Exhibition area – showcasing products and companies working in MS
- Information Zone – MS services from independent and voluntary sector organisations
- Technology Zone – new for 2012, a chance to see equipment supporting mobility, communication and environmental needs
- Networking opportunities with colleagues from across the UK
- Research and Development Showcase – submit a poster and celebrate the work you or your team are doing to generate evidence or improve care

Who is the conference for:

- Specialist MS nurses and allied health professionals
- Social workers supporting people with MS
- Care home and nursing home staff with a special interest in MS
- Primary care teams supporting people with MS

Research & Development Showcase

A call for posters

Have you or your team:

- undertaken a research or audit project?
- undertaken some service development?
- launched a project?
- gathered evidence about your practice or service?
- worked in partnership with other teams or services?

The R&D Showcase is a chance to celebrate your work. No project is too small and posters do not have to be professionally produced. We welcome all well-presented work which highlights ways in which you have generated evidence or improved services for the benefit of people with MS.

Prizes will be awarded for:

- Best overall poster
- Best new entrant
- Best new-in-post entrant

Winners will be invited to present their poster during the conference closing session

For poster guidelines, including tips and ideas for producing your poster please visit:
www.mstrust.org.uk/conference
